

# Manav Arora

Navi Mumbai • +91 8928986507 • [manav-manu-arora@outlook.com](mailto:manav-manu-arora@outlook.com) • [LinkedIn](#)

## PROFESSIONAL SUMMARY

AI/ML student focused on building end-to-end systems in financial NLP, real-time inference, and recommendation engines. Experienced in developing production-style pipelines integrating LLMs, APIs, and edge deployment.

## CORE COMPETENCIES

Machine Learning • Deep Learning • Natural Language Processing Computer Vision • Recommendation Systems REST API Development • Data Structures & Algorithms Object-Oriented Programming • SQL Model Deployment • Software Development Life Cycle (SDLC)

## TECHNICAL SKILLS

Python • SQL • Scikit-learn • OpenCV • YOLO • Flask • REST APIs • Pandas • NumPy • Power BI • MongoDB • MySQL • Git • GitHub • Google Colab

## EDUCATION

**Atlas SkillTech University**  
Bachelor of Technology (B.Tech) in Artificial Intelligence and Machine Learning

Graduation Date: May 2027  
**Mumbai, Maharashtra**

## EXPERIENCE

### Plattr.io

AI Intern | Flask, OpenAI API, Anthropic API, FMP API

**Navi Mumbai Maharashtra**

May 2025 - July 2025

- Built an end-to-end financial analysis pipeline using SEC-API, processing 45+ SEC 10-Q filings with LLM-powered analysis.
- Developed 14 REST APIs integrating OpenAI, Anthropic, and financial data services for automated financial insights.

### OutPulse ([Open-Source](#))

**Mumbai, Maharashtra**

Software Engineer | YOLOv11, LiDAR

Dec 2024 - Feb 2025

- Trained and optimized a YOLOv11 cone detection model on 962 images for real-time computer vision applications.
- Built an OpenCV-based real-time inference pipeline and exported ONNX models for edge deployment.

## STRATEGIC PROJECTS

### AI-Based Phishing Detection System

Completion Month: March 2026

- Built a phishing detection system on 164K+ emails using NLP, URL, and HTML-based features for multi-signal classification.
- Trained a Naive Bayes model on a 20K+ token vocabulary, achieving 96.7% accuracy and 0.953 F1-score with low false positive rate (~1.9%).
- Developed a real-time system with REST APIs and a browser extension, enabling sub-100ms inference and supporting incremental retraining via feedback-driven pipelines.

## CERTIFICATIONS

Stanford Online Supervised Machine Learning: Regression and Classification (2025) • Stanford Online Advanced Learning Algorithms (2025)

## ACHIEVEMENTS & CO-CURRICULAR

- Placed 14th out of 40 international teams at the International Space Drone Competition (ISDC) as a member of the OutPulse team.
- Represented Atlas SkillTech University in multiple inter-collegiate esports tournaments, competing in team-based national and regional events.
